Energy Transition Council

**WHO WE ARE**

- **Multilateral Platform** with over 30 governments, multilateral development banks, technical partners and international organisations
- **Rapid Response Facility (RRF)** delivering fast-acting and demand-driven technical assistance to address transition barriers and unlock larger scale, longer term finance

**Multilateral Platform**

- **20 Partner Countries** with clean energy transition challenges and opportunities
- **High-trust dialogue** mobilising, aligning, and coordinating support for the clean energy transition
- **Collaborating** on key areas, including coal retirement, renewables deployment, energy efficiency and a just transition

**Dialogue and RRF Support** set to continue to at least 2025

**WHAT WE’VE DONE SO FAR**

- **14 ETC National Dialogues** to identify energy transition priorities, shared challenges and sources of international support
- **6 ETC Ministerials** to raise confidence in ability to deliver on shared challenges; secure ministerial buy-in to energy transition agenda; and foster senior-level, high-trust dialogue
- **100s** of smaller focused strategy sessions and working groups to address and unblock specific technical challenges impeding the energy transition

**Rapid Response Facility (RRF)**

- **27 RRF technical assistance** requests in energy efficiency, just transition and clean cooking across
- **9 ETC countries,** with more in the pipeline, responded to by over 25 delivery partners

**Deliveries Partners, more in the pipeline**

**Partner Countries**

- Indonesia
- India
- Vietnam
- Philippines
- Laos PDR
- Bangladesh
- Pakistan
- Morocco
- Egypt
- Nigeria
- Kenya

**Donor Governments**

- France
- Germany
- Denmark
- US
- Canada
- Netherlands
- Norway
- Sweden
- European Commission

**Institutions & Philanthropies**
